

Alternative Medicines' View on Efficacy of the Corona Virus Vaccine

By Dr. Michael John Badanek, BS, DC, CNS, CTPP, DACBN, DCBCN, MSGR./CHEV

The old swine flu vaccine caused permanent brain damage; will the new coronavirus vaccine do the same?

Following on from the announcement recently that the **imminent Wuhan coronavirus (CoVid-19) vaccine** that could be “fast tracked” to general release as early as July this year, will skip animal testing and come straight to human live trials. With little to no testing it means that the vaccine could indeed be more harmful than the virus, the extent of the damage it could cause will be unknown.

Whilst it will no doubt perpetuate the disease further through what's known as “shedding”, it will increase the viral spread, yet any cause of death will be attributed to the Corona Virus. So we would need more vaccines to stop it!

As reported on Vaccine.news: Several years back when everyone was freaking out about the H1N1 swine flu, health authorities promised a “miracle” vaccine that, in the end, **was shown** to be far more dangerous than the swine flu itself because it caused permanent brain damage. Well, now this same situation is happening all over again with the Wuhan coronavirus (CoVid-19), with promised vaccines that will more than likely come with similar damaging adverse effects.

As you may recall, a shocking one in 16,000 people who were given the so-called Pandemrix vaccine, a product of GlaxoSmithKline (GSK), were later observed to develop some combination of narcolepsy, brain damage and even *death*. Some individuals reportedly lost their ability to sleep for more than 90 minutes at a time, while others suddenly fell unconscious without warning.

The result was that many victims ended up suing GSK, and in the United Kingdom authorities agreed to pay out the equivalent of nearly \$100 million in damages. The whole thing was a major fiasco, in other words,

demonstrating once again that vaccines are hardly ever what they're cracked up to be.

Fast-forward about five years and here we are again with another major disease outbreak that the government says will require [a novel vaccine](#) in order to eradicate. And just like previous ones, it probably won't be nearly as safe or effective as health officials will one day claim.

SARS-CoV vaccines were shown in studies to cause immunopathology and increased susceptibility to more disease.

[A 2012 study](#) published in the journal *PLoS One* found that getting jabbed with SARS (severe acute respiratory syndrome) coronavirus vaccines can cause a person to develop pulmonary immunopathology, meaning *more* infection.

Researchers out of Texas determined that while getting vaccinated against SARS coronavirus results in a strong antibody response, the associated "challenge" of immunopathology creates other problems that, once again, makes these "medicines" more harmful than good.

"These SARS-CoV vaccines all induced antibody and protection against infection with SARS-CoV," they concluded. "However, challenge of mice given any of the vaccines led to occurrence of Th2-type immunopathology suggesting hypersensitivity to SARS-CoV components was induced. Caution in proceeding to application of a SARS-CoV vaccine in humans is indicated."

The Polio vaccine causes polio, so just in the same way the Corona Virus is likely to cause more cases of Corona Virus.

What we're witnessing is, in many ways, a repeat of what happened during the swine flu scare. Health authorities and governments around the world created fear and panic over a novel disease in order to scare millions of people into getting a vaccine that was more dangerous than the disease itself. And just like with the Wuhan coronavirus (CoVid-19), taxpayers are largely footing the bill.

Dr. Badanek has been and currently is 40 years into active/private practice in the Ocala/Marion County, Florida region. Dr. Badanek practices Natural/Holistic Medicine through the use of Functional/Integrative Models for diagnostic and treatment protocols for the health challenged. Find him online at Dr.Badanek.com and www.alternativewholistic.com, and see what the facility has to offer the sick and health challenged. To schedule an appointment call 352-622-1151
